Suggestions on 'Santorini'

- More participants: all PAs?
- More focus on cross-border development
- Less Use Cases: focus on common challenges
 - 'common problems', with attention to the position of the farmers
 - **'performance based monitoring or results based payments'**
 - Others??
- Longer horizon: focus on the CAP after the upcoming one (or even beyond)
- NIVA 2 as a incubation space for innovation
- Santorini Agreement: expressing the wish to continue collaboration
